

## EQUIPMENT PASSPORT FOR KAYAK AND VA'A

Name of athlete:  Federation:

Athlete sport class:  Athlete sport status:

Type of boat:  Rudder:

Total paddle length:

Blade name / Size:

Distance between back of seat and the footrest =

*NOTE: Please measure from the middle of the footrest, (where the rudder bar comes through for kayak), to the middle of the top of the seat. Measuring to the top of the seat should avoid difficulty in measuring around other assistive devices fixed into the boat. For those with solid footplates (mainly Va'a)- please mark the centre point of the footplate and measure from there.*

*Those few athletes, who do not use a footrest, do not need to do this measurement.*
