B.S. Geology, Bucknell University

### Summary of Professional Work Experience

Robert Garfield is an Owner and the Principal Borehole Geophysicist at Hager-Richter Geoscience (HRGS) with over 22 years of experience in the geophysical profession at HRGS. Mr. Garfield is a licensed professional geologist in the states of New York and Louisiana, and manages all HRGS operations through the United States and internationally. Mr. Garfield is involved in all aspects of Hager-Richter's work and specializes in high resolution borehole geophysical logging services. Mr. Garfield is widely recognized as an expert in the field of borehole geophysics, is often asked to speak about applications of borehole geophysical logging services for engineering and environmental applications, and services on the board and on national and international committees of geologic and engineering organizations. Mr. Garfield works with local, state, and federal organizations and agencies as well as private industry on geo-engineering and environmental investigations.

### Kayak Related Experience

Robert Garfield has over 25 years of experience in paddle sports. Mr. Garfield has extensive experience as a kayak guide and an ACA kayak instructor, and he currently serves as president of the Jersey Shore Sea Kayak Association (JSSKA). In addition to Mr. Garfield's role as JSSKA president, he also is actively involved in the kayak communities throughout the Southeastern, Mid-Atlantic, and Northeastern United States.
